## WOULD GIVE UP ROADS DEC. 31

Charles A. Prouty Favors Certain Degree of Federal Control for One Year.

## FEARS LARGE DEFICIT

Former Member of Interstate Commerce Commission Estimates Railways Will Run Behind From \$500,000,000 to \$800,000,000.

Washington, July 3.—A letter has been addressed to several congressmen by Charles A. Prouty, former member of the interstate commerce commission and now director of the division of accounting of the railroad administration.

He declares the railroads should be returned to their owners December 31, but the government should retain a certain degree of control for another year while the financial relations between the railroads and the government are being adjusted.

He estimated the deficit for this year, if the first three months be taken as an index, will be from \$500,000,000 to \$800,000,000. He puts forth the following suggestions:

"Rates to be fixed by the interstate commerce commission. Such rates to be absolute, with no right upon the part of the carrier to vary up or down. Fixing of Divisions.

"State rates to be fixed by the interstate commerce commission in collaboration with the state commission, or perhaps by the state commission with the right of appeal to the interstate commerce commission.

"The interstate commerce commission shall have power to fix divisions and also to approve agreements for the routing of traffic and the division of earnings from competitive traffic, but not until after full hearing upon notice to all interested parties, including the general public.

"The railroads should be self-supporting. To this end congress should instruct the interstate commerce commission to establish such reasonable rates as will yield a fair return upon the value for the rate making purposes which it establishes.

Return Not Prescribed.

"The amount of this return ought not to be prescribed. In the nature of things, it cannot be the same upon the value of all carriers. The rates should produce an adequate return upon the average value affected by them.

"The value upon which this return should be allowed is that value the commission is now fixing under the valuation act of 1913.

"Congress should provide that no carrier shall pay to its security holders out of its net operating income in any year more than a certain per cent upon the ratemaking value fixed by the commission.

"The carrier should be allowed to pay to the owners of its securities which represent its carrier property, say 6 per cent upon its ratemaking value as determined by the commission."

## UKRAINIANS DEFEAT POLES

Reported to Have Occupied Large Portion of Galicia.

Basle, July 3.—Dispatches from Vienna said that, according to news from Galicia, the Ukrainian army under General Grakov, which the Poles were believed to have crushed, has begun a whirlwind offensive in which it has occupied a large section of eastern Galicia.

Despite the superiority of their equipment the Poles were completely routed.

## TO TOUR NORTHWEST FARMS

Makers Will Demonstrate Value of Motor Trucks.

Chicago, July 3.—Final arrangements for demonstrating the value of the motor truck to the farmer were completed at a meeting of the National Association of Motor Truck Sales Managers here, when it was announced that 25 trucks would leave Chicago Aug. 4 on a two months' tour through the Northwest. Sixty of the leading motor truck manufacturers are represented in this association.

## GARMENT WORKERS STRIKE

Chicago Factory Hands Ask for Scale of \$44 Per Week.

Chicago, July 3.—Ten thousand garment workers in 105 factories walked out in a general strike and effectually tied up the manufacture of women's clothing in Chicago. The union demands \$44 for the week's work consisting of 44 hours, elimination of piece work and better working conditions in factories.

First Arrests Under Law.

Kansas City, July 3.—Two bartenders were arrested here on orders of Francis M. Wilson, United States attorney, charged with selling beer. They were arraigned before United States Commissioner Harry L. Arnold, and entered pleas of guilty.

## THEODORE ROOSEVELT

Will Become Candidate for New York Assembly.

Lieutenant Colonel Theodore Roosevelt of Oyster Bay has agreed to be a candidate for the republican nomination for assemblyman from the Second assembly district of Nassau county, it was announced by Edward J. Conlin, chairman of the Oyster Bay republican town committee.

## MAY INCREASE RATES

Hines Will Lay Freight Situation Before President.

Director General Says July 1 Financial Requirements of Roads Have Been Met.

Washington, July 3.—Director General Hines expects to consult with President Wilson on the question of another raise in freight rates soon after the president's return, it was cited authoritatively. Mr. Hines will lay before the president at the same time detailed data on the railroad financial situation.

The country, however, will probably not know until Oct. 1 whether it will have to pay increased transportation charges. By that time, railroad officials said, they can tell whether the increase in traffic will be enough to offset increased operating costs.

Mr. Hines said July 1 requirements of the railroad administration had been met. They totaled \$95,000,000, while \$100,000,000 was available for meeting them. It was recently reported these debts could not be paid until the president signed the railroad appropriation bill.

## PLANS TO REBUILD FRANCE

Program Calls for Expenditure of Eight Billion Dollars.

Paris, July 3.—A vast reconstruction program for the whole of France at an estimated cost of \$8,000,000,000 was announced in the Chamber of Deputies by M. Bedouce, budget reporter, during the debate on public works. The plan includes reconstruction of railroads, some of which would be electrified, and large projects for buildings, canals and improving harbors.

## FARMER COMMITS SUICIDE

Could Not Endure Thought of Country Going Dry.

Menomonee, Wis., July 3.—Because he could not endure the thought of the country's going dry, Gottlieb Kunz, a farmer living two miles west of Downsfield, killed himself. He had threatened such suicide if deprived of his beer, but little attention was paid to the remark. Kunz, who leaves a wife and nine children, was about 55 years old.

## SERIOUS RIOTING IN ITALY

Large Crowds Protest Against High Cost of Living.

Forli, Italy, July 3.—After a great meeting in which a vast crowd protested against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops which refused to sell commodities at lower prices.

All the principal shops were plundered and the mobs controlled the entire city. They took possession of lorries and transported all kinds of goods and food supplies from the pillaged shops to the chamber of labor. On the walls of this chamber they wrote:

"These goods are at the disposal of the people."

Colonial Division Nears Approval.

Paris, June 3.—An agreement between France and Great Britain concerning the division of the former German African possessions of the Kamerun and Togoland, the Petit Parisien says, will soon receive the approval of the two governments.

More Germans Deported.

Charleston, S. C., July 3.—A train load of Germans formerly interned at Fort Oglethorpe embarked for Rotterdam to be repatriated.

## KAISER WILL SOON BE TRIED SAYS LLOYD GEORGE

### The Townley Trial

(By United Press)

Jackson, July 3.—The state rested its case at 10:40 today in the trial of A. C. Townley and Joseph Gilbert charged with conspiracy to teach disloyalty while the war was in progress. Immediately afterward Attorney George Hoke for the defense, entered a long argument for dismissal of the case declaring that criminal intent has not been shown. Spectators believed Judge Dean would deny the motion. The prosecution was to interpose objections this afternoon. Court will adjourn today until next Monday.

### Noted Suffrage Leader is Dead

(By United Press)

Media, Pa., July 3.—Dr. Anna Howard Shaw, honorary president of the National Woman's Suffrage association, is dead at her home in Morton near here as a result of recurrent pneumonia. She died last night. She was recently given the distinguished medal.

### America Bound to Aid France If Attacked

(By United Press)

Paris, July 3.—The United States bound to come immediately to France's aid in case of any unprovoked act of aggression directed against her by Germany according to the provision of the treaty agreement sought between America and France. A similar agreement is being negotiated with Great Britain.

### Wilson Will Arrive in New York Tuesday

(By LOWELL MELLETTE (Staff Correspondent, United Press))

Aboard the U. S. S. George Washington, July 3.—President Wilson made arrangements today for his arrival in New York at about two o'clock next Tuesday afternoon.

### Bombs for Red Demonstration Discovered

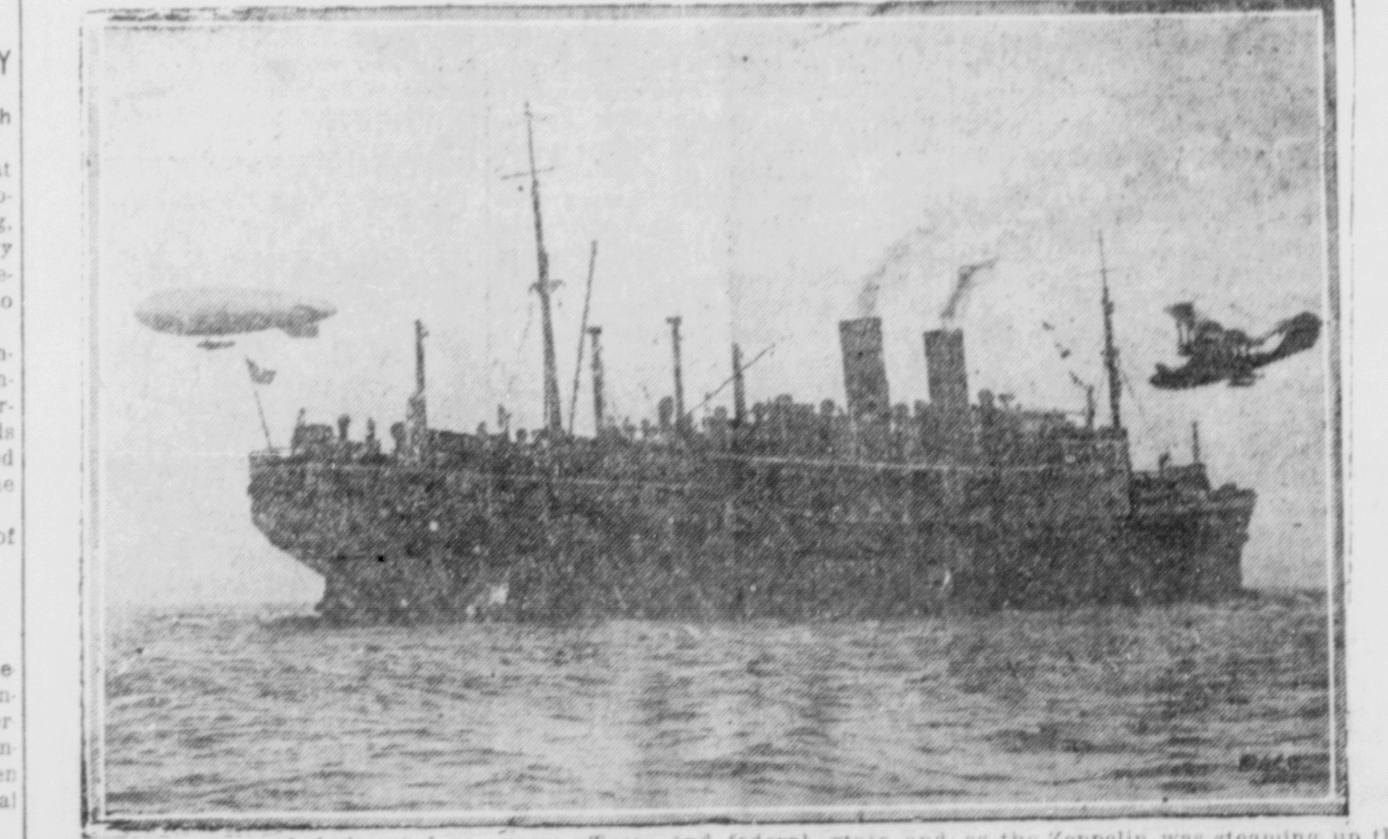

(By United Press)

Walpole, Mass., July 3.—Nineteen bombs believed intended for use in Red demonstrations were found in a shed here today.

### Missouri Ratifies Suffrage Amendment

Jefferson City, July 3.—Missouri today ratified the suffrage amendment.

### Dirigible and Seaplane Welcoming Transport That Brought Back Commander of First Flying Machine to Cross Atlantic

America gave a whole-hearted reception to Lieutenant-Commander A. C. Read, captain and navigator of the NC-4, when he arrived in New York on board the transport Zeppelin. In the waiting crowds were navy officers and federal, state and city officials, but before Read and the other officers in charge of the NC-4 set foot on land they were welcomed by the best Uncle Sam has in aircraft. This photograph, taken

(By United Press)

London, July 3.—Premier David Lloyd George in the house of commons today stated that the former German kaiser will soon be brought to trial. He said that the allies have decided that the tribunal shall sit in London.

He said he is opposed to placing any predominantly German territory under Polish rule. He also declared the German army is now inadequate to disturb the peace even of her feeblest neighbors.

### English Air Ship Reported Safe in Mid Ocean

(By United Press)

Cape Race, New Foundland, July 3.—The White Star Liner Megantic reported today that at two o'clock this morning, New York time, she picked up a wireless from the British dirigible R-34 giving her position as somewhat more than 1000 miles west of East Fortune, Scotland, where the airship started for America. The message said she was flying in the sunshine above the clouds at an altitude of about two thousand feet. Reports from London indicated the dirigible is making slower time than at the start, but she is expected to arrive tomorrow, probably landing at Minneola, Long Island. Asked by the wireless station at East Fortune if she was receiving sufficient weather reports, the commander of the dirigible replied they were in touch with Ponta Del Gada, St. Johns and Clifden, Ireland.

The terrific storm which has been raging off New Foundland coast the last two days, was abating rapidly today, although the weather was still unpromising. The belief was expressed the trans-Atlantic flyer would skirt the storm.

### Dirigible Reported 800 Miles from St. Johns

(By United Press)

London, July 3.—General Seely announced in the house of commons this afternoon that the dirigible R-34 was only 825 miles east of St. John's, New Foundland, at one o'clock this morning, New York time.

### Ukrainians Occupy City of Odessa

(By United Press)

Copenhagen, July 3.—The Ukrainian Press Bureau announced that after a desperate battle of four days between the Poles and Ukrainians, the latter occupied Odessa.

### Causes for Divorce.

Desertion ranks first as a cause for divorce, cruelty second, adultery third.

## REDS CLAIM VICTORY

Say They Have Captured Perm from Loyal Russians.

Report, If True, Will Be Serious Setback to Northern Wing of Kolchak Army.

London, July 3.—The capture of the city of Perm from the forces of the Kolchak government is claimed by the bolsheviks in a wireless dispatch from Russia received here today.

The loss of Perm to the bolsheviks, if confirmed, will be a serious setback to the northern wing of the Kolchak forces operating west of the Ural. Perm was the starting point of the Kolchak offensive last spring. Early in June the Kolchak forces captured Glazov, 140 miles west of Perm, but recently was compelled to retire on this front. Perm is 210 miles north of Ufa, the base of the southern wing of the Omsk government force which was captured by the bolsheviks June 12.

If the Siberian forces have lost Perm they will have only one important base west of the Ural, Ekaterinburg.

The bolsheviks seemingly are carrying out an offensive on their eastern front against the Kolchak troops while retreating in southern Russia before the nonbolshevik forces there. The bolshevik strategy apparently has been to strike hard on one front, while retreating on another, and then to swing their offensive suddenly to another front.

## VILLA DISLIKES AMERICANS

Mexican Rebel Threatens to Kill Captured Yankees.

El Paso, July 3.—Francisco Villa ordered all Americans hanged when captured, following the crossing of the American expedition, according to a foreign resident of Northern Mexico, who reached the border. He sent a train to Villa Alameda to capture Americans known to be there, the refugee said, and was so bitter against Americans he vowed to kill Hipolito Villa, his brother, because of the latter's professed friendship for them, according to the refugee's statement.

Villa and Martin Lopez quarreled after the retreat from Juarez, he said, and divided their forces.

## LABOR FOR HARVEST FIELDS

Railroads Are Arranging to Run Special Trains.

Washington, July 3.—Emergency measures were taken by the railroad administration to rush laborers into Kansas to help harvest the wheat crop. Director General Hines instructed the Santa Fe general passenger agent in Topeka to run special trains if necessary, to carry laborers into the state from Chicago, Kansas City, St. Louis and other western cities.

## Cuban Censorship Ends.

Havana, July 3.—All wartime cable and postal censorship restrictions are removed, according to a presidential decree published in the Official Gazette.

## Causes for Divorce.

Desertion ranks first as a cause for divorce, cruelty second, adultery third.

## ADMIRAL RODMAN

Assumes Command of American Pacific Fleet.

With a brief ceremony in the presence of thirty officers and 300 members of the crew of the battleship New York, Admiral Hugh Rodman, who was commander of the sixth battleship squadron, composed of American naval vessels serving with the British fleet, assumed command of the Pacific fleet at the New York navy yard.

## FLIES ABOVE CLOUDS

British Dirigible Balloon Coming Across the Atlantic.

Machine Will Be Met Off American Coast By Welcoming U. S. Naval Aircraft.

London, July 3.—The air ministry has received a report from Commander Scott that at 20:15 Greenwich mean time (3:15 p. m. Minneapolis time) the dirigible R-34 was flying westward at 30 knots, 2,000 feet above the sea.

At this height the R-34 was above the clouds and enjoying brilliant sunshine. Commander Scott expects to arrive Friday morning.

## May Land Friday Morning.

Minneapolis, N. Y., July 3.—Lieut. Col. F. W. Lucas, in charge of the British admiralty arrangements for the reception of the dirigible R-34 after its flight across the Atlantic, announced that unless unusually heavy winds or storms were encountered, the dirigible would arrive over Roosevelt field Friday afternoon.

No attempt will be made to land, he said, until about 6 p. m. because too much hydrogen gas would be wasted in making a landing in the hot hours of the day. There is a bare possibility that with favorable winds the craft will arrive Friday morning and land immediately.

The R-34 will be met off the American coast by welcoming United States naval aircraft, including the dirigible C-4 and several seaplanes which will escort the huge craft to its anchorage at Minneola.

Everything is in readiness for the dirigible's reception.

## NATIONAL EDITORIAL TOUR

Victory Trip Through Pacific Northwest Is Arranged.

St. Louis, Mo., July 3.—The itinerary of the 34th annual meeting of the National Editorial association has just been announced. This will be a victory tour of the Pacific northwest, including Portland, Seattle, Vancouver and Victoria. It will continue from July 28 to Aug. 26. George Schlosser of Westinghouse Springs, S. D., is secretary of the association. It is planned to leave Chicago over the Soo line on July 28, going from there to Minneapolis and then through Canada. Part of the trip will be made by boat, and many special excursions and tours have been arranged in connection.

## VON HINDENBURG IS READY

German Field Marshal Willing to Face Firing Squad.

Berlin, July 3.—Field Marshal Von Hindenburg is reported to have told students from Goettingen, who called on him, that "If our foes want to stand an old man like me, who has but done his duty, up against a wall, they may have me. They would only load another disgrace upon themselves."

The incident occurred at military headquarters at Kolberg, Pomerania.

Chicago Names Street for Roosevelt.

Chicago, July 3.—Twelfth street, which extends from Lake Michigan to the western city limits, a distance of nearly ten miles, hereafter will be known as Roosevelt road. The street recently was widened and improved at a cost of several million dollars.

## HOPE FOR EARLY SENATE ACTION

Wet Advocates Will Press Ratification of Treaty and League of Nations Pact

## LID WILL BE LIFTED

Attorney General Says Demobilization Will Be Complete When Army Has Been Reduced to the Peace Time Footing.

Washington, July 3.—Possibility that pressure will be brought by the "wet" forces to induce the senate to ratify the peace treaty quickly and accept the league of nations, was emphasized by an opinion expressed by A. Mitchell Palmer, attorney general, as to the time when the war may be regarded as over.

The attorney general holds that the time of the ending of the war is clearly indicated by the trading with the enemy act which defines the end of the war as follows:

"The end of the war shall be the date of the proclamation of the exchange of ratification of the treaties unless the President by proclamation shall declare a prior date in which event such prior date shall be the end of the war."

## Ratification Necessary.

Mr. Palmer believes that a ratification of the treaty by the senate is an absolute essential to the proclamation of peace and that the prior proclamation that might be issued by the President would necessarily follow this ratification. Any such proclamation by the President might anticipate the return of peace to the extent of the time that would be involved in the physical exchange of the ratification of the treaties between Germany and the United States.

The President has held that he cannot lift the prohibition ban until the war is over and demobilization complete. It is accordingly accepted that the club of war-time prohibition and its continuance, so far as presidential action is concerned, is contingent upon senate action.

## Demobilization Opinion.

The attorney general so gave his opinion of what would constitute demobilization. In his opinion, demobilization, which must also be accomplished in the opinion of the President, before he can lift the wartime prohibition ban, will be accomplished when the army shall have been reduced to the number of men which Congress, in the new army bill pending, determines shall be the peace size of this branch of the service.

It is confidently anticipated this will be accomplished before the senate will have ratified the peace treaty, so the burden of continuing wartime prohibition will have been shifted to that body.

The attorney general has not changed his position relative to prosecutions for violations of the law so far as the sale of beer containing an alcoholic content of 2.75 per cent is concerned. He will bring prosecutions in every judicial jurisdiction in the United States and will be governed by the general trend of these decisions.

## ALLEGES LAW VIOLATIONS

Representative McFadden Attacks Farm Loan System.

Washington, July 3.—Violation of the law regarding farm loans was charged against the federal land banks, "as guided and controlled by the Federal Farm Loan Board," by Representative McFadden, Republican of Pennsylvania, under an extension of remarks printed in the Congressional record. He asserted that the requirement that loans be made only to resident land owners was disregarded, and that "dummy deals" permit evasion of the maximum amount of a loan on one farm. He urged that congress make federal land bank loans taxable, which he asserted would enhance the value of Liberty bonds.

## PEACE PROCLAMATION READ

Large Crowds Witness Quaint Ceremony in London.

London, July 3.—The quaint medieval ceremony of reading the king's proclamation, declaring that a state of peace now exists with Germany, was carried out at five points in the city. There were large crowds at each of the five points—St. James' Palace, Trafalgar Square, Temple Bar, Cheap side and the Royal Exchange.

Charles K. Lipman Is Dead.

New York, July 3.—Charles K. Lipman, a prominent figure in the copper industry of the United States, died at his home here. Mr. Lipman was for many years associated with the mining interests of the Guggenheim brothers.

## Dusseldorf Under Siege.

Basle, July 3.—Clashes between radicals and government troops have resulted in a state of siege being declared in Dusseldorf, it was reported.

itary barn on his premises. He plead-  
ed guilty and Judge Louis B. Kinder  
fined him \$5 and costs of \$1.50  
which was paid. Officer B. E. Ko-  
cher was the complaining witness.

### EFFECT OF HOT WINDS ON CROPS

BY E. G. ROTH,  
(County Agricultural Agent.)

The extremely hot dry winds of  
the past three days have had a marked  
effect on the crops. It is hasten-  
ing the filling out and ripening of  
the earlier grains such as barley and  
rye, and will, if it continues, have  
a tendency to ripen these crops pre-  
maturely, not allowing sufficient  
time for filling. It has also caused  
wheat, oats and other small grains  
to head in moist fields which are also  
showing the effect of too much heat.

These parts of the county report  
some of the smaller grains as suffer-  
ing from the heat and wind. A good  
rain at this time would have a very  
beneficial effect on the crop develop-  
ment, as the grain is now in a mat-  
uring stage and should have cool  
weather to allow ample time for fill-  
ing.

Corn as yet, shows no ill effects,  
but on the contrary is making rapid  
 strides owing to the warm condition  
of both days and nights. Cultiva-  
tion is conserving the moisture while  
the dry weather kills the weeds once  
they are up-rooted.

Haying, which started the latter  
part of last week, is in full swing  
all over the county. It cures rapidly  
but is hard to handle owing to the  
wind. It is very good haying weather.

The potato outlook is not as good  
as it was last week, the dry condi-  
tions hindering vine growth. On the  
whole, no material damage has been  
done by wind and heat as yet, but  
should it continue, our crops are  
bound to suffer.

**A Little Girl's Problem.**  
The father of a little girl I know is  
a Methodist, and her mother an Epis-  
copalian, and the poor child never  
knows, in saying her prayers, whether  
to end them with "A-men" or "Ah-  
men."—E. W. Howe's Monthly.

**Mutual Obligations.**  
"Husbands should be frank and tell

### BOTH HOUSES ARE BUSY THIS SUMMER

CONGRESS HAS BEEN WORKING  
OVERTIME ON LEGISLATION  
THAT WAS PRESSING.

### HAD TO PASS MONEY BILLS

Republicans Will Investigate the War  
Expenditures and Are Debating  
How Far They Should Go in Re-  
vising the Tariff.

By EDWARD B. CLARK.  
Washington.—Because of the pre-  
dominant interest which attaches to  
it, the controversy over the League of  
Nations to a considerable extent has  
obscured other doings in congress.  
The house and senate are both busy  
bodies today and possibly there are  
some hectic ones who might suggest  
that "busy bodies" be made into one  
word.

Such a suggestion, however, in all  
fairness, would be out of place. Con-  
gress is working hard today. There  
was an immense amount of work to  
be done in June because many of the  
appropriation bills were left over for  
action from the last session, the re-  
ason being, the Democrats will tell you,  
because the Republicans raised so  
many extraneous issues that the sup-  
ply bills were blocked, while the Re-  
publicans will tell you that the Demo-  
crats did not have energy enough to  
put them through. Take your choice.

The thing which remains is that the  
two houses literally had to work over-  
time all through June in order to get  
the necessary money bills into shape.  
If these measures had not been put  
through Uncle Sam would not have  
had money enough to his credit prop-  
erly to celebrate the Fourth of July  
in his own behalf.

The Republicans are in an investi-  
gating mood. They have a committee  
of fifteen appointed by the house of  
representatives to investigate the war  
expenditures. The Republicans charge  
that the administration spent more  
money than was necessary in prosecut-  
ing the war. Denial of this charge is  
forthcoming daily in congress. In-  
vestigation, however, will go on and  
it is certain to develop some interest-  
ing facts and figures, even if it is in-  
conclusive in its results so far as the  
specific reason for the investigation  
is concerned.

Our old friend Pearl Buttons is oc-  
cupying, or is about to occupy, the at-  
tention of the ways and means com-  
mittee of the house of representatives.  
Pearl Buttons is not, as one possibly  
might think, an appealing human  
creature with a slight roseate flush.  
Pearl buttons are a commodity of  
trade and the ways and means com-  
mittee is going into the industry in  
order to revise the tariff, touching  
merchandise articles. Pearl but-  
tons have figured in every tariff re-  
vision since revision was heard of.

There was a long discussion among  
Republican leaders concerning the na-  
ture of the tariff legislation which  
the majority in congress should attempt  
to undertake. The first suggestion was  
that a complete tariff bill should be  
written, even though the chance that  
after its enactment it would be signed  
by the president of the United  
States was remote.

ident will sign the bill, because the  
intention is to confine the revisions  
to such conditions as have appeared  
for remedy to both political parties.

Universal Training Sidetracked.

It will be some time probably before  
the majority in congress will take up  
the question of universal military  
training. Next year is a presidential  
year and the leaders of both parties  
are studying the question of military  
training with a view of determining,  
definitely if they can, how the people  
generally look on compulsory field ex-  
ercise for eight to ten months a year  
for the youth of the nation.

It is said that a poll of several di-  
visions in France on the subject of  
military training for the youth of the  
land was made with a generally af-  
firmative response. The soldiers over-  
seas, and those who have returned, re-  
alize, of course, how much they have  
been benefited by outdoor exercise,  
good food, regular hours and the nec-  
essary discipline. It also must be re-  
membered that these men have had  
their training and will not be com-  
pelled to undergo it again. So it is  
that there was removed from the sol-  
diers who expressed themselves on the  
subject the consideration that any  
law which might be passed would af-  
fect them.

One reason for the close study of  
the questions of future preparedness  
and of military training is the desire  
of the leaders of both parties to know  
what they shall write about these mat-  
ters in the national convention plat-  
forms next June. Congress is feeling  
its way in both these things of high  
import.

**The Knightly Pledge.**  
"Wants this Knightly Commander of  
the Bath decoration they're hanging  
onto our generals over in England?"  
asked one wounded doughboy of an  
other.

"Huh!" exclaimed his companion  
from Tennessee. "Reckon that must  
be the prohibition division of the Brit-  
ish service. All they gets to drink is  
the two well-known waters—hot and  
cold."

**Not Exactly.**  
"Mother," said a small girl, after  
contemplating her baby brother for  
some time, "was I a baby once?"  
"Yes, dear; we were all babies  
once."  
"You and daddy, mother?"  
"Yes."  
"And grandfather?"  
"Yes, of course."  
"What, mother?" exclaimed the  
child incredulously, "with that beard?"

**China After Industries.**  
Chinese government experts have  
been sent to several countries to  
study the manufacture of telegraph  
and telephone equipment with a view  
to producing all such apparatus at  
home.

**Disarming  
Allegiance**  
In no other way  
do we make  
an effort to  
obtain the  
respect of  
thinking  
people  
except by  
a strict  
conception  
of our  
duty and  
unfailing  
allegiance to it

### REFRIGERATORS

There is real comfort in having one of our refrigerators "on duty"  
in your household during the hot summer months, but it also  
means more than that to have one in operation, it means you are  
practicing real economy.

### Our Refrigerators

Are so scientifically constructed that they produce a cold tem-  
perature. Everything remains crisp and fresh, while the tempera-  
ture remains unusually cool, the quantity of ice needed to produce  
this is unusually small.

For genuine satisfaction and all-around serviceability we re-  
commend our White Mountain or Northland Refrigerators.

Prices Range From \$21.50 to \$45.00

## WOMAN'S REALM

## GEO. H. CROSBY VISITS IN CROSBY

Was a Guest of His Son—James Nelson Was a Delegate to a Sunday School Convention

## HAROLD BENEDICT HOME

P. T. Brown, Brainerd State Boiler Inspector at Crosby and the Mines on Inspection Work

Crosby, Minn., July 2—George H. Crosby of Duluth was here the latter part of last week visiting his son. A. J. McLennan, who was here in the interests of George H. Crosby this week, states he and his family will soon be here for the summer.

James Nelson, who was in St. Paul as a delegate to the Sunday school convention, returned this week with a new Chandler car.

Miss Bernice Walker, who attended the Sunday school convention and later visited friends in St. Paul, returned home Wednesday.

A. E. Lovdahl went to Minneapolis by auto the first of the week.

Harold Benedict, son of Attorney and Mrs. C. L. Benedict, returned Wednesday from France where he saw active service for several months.

The Presbyterian aid society at its meeting Wednesday voted to hold a family picnic in the near future at the home of I. W. Smith at Crosby Beach.

Three hundred fans contemplate going to Brainerd Sunday afternoon to witness the Crosby-Brainerd game, confident that the locals will add their fifth game without being scored on.

P. T. Brown, state boiler inspector, was here Friday and Saturday looking over the mines.

The Park hotel has been repainted and presents a decided improvement.

Miss Pearl Rodrick of Brainerd is the guest of his cousins, Mike and Alex.

W. S. McCormick, a public speaker of Duluth, has been engaged to deliver the address here July 4.

Miss Edna Toomey left Sunday for St. Cloud to attend summer school.

Mrs. D. S. Bame left the latter part of last week to visit in Minneapolis.

Miss May Tapola is spending the week with relatives in Minneapolis.

Mrs. Alexander Anderson and daughter, Marion, of Duluth, are the guests of Mrs. B. A. Smith.

Mrs. R. C. Stevens and daughter have gone to Hibbing to make their home. Mr. Stevens is employed in that village.

Mrs. R. A. Welsh left Saturday to consult an eye specialist in the Twin Cities.

Mrs. William Tackberry of Detroit, Mich., is a guest of her sister, Mrs. George Thorpe.

## Woman's Brainiest Age.

A woman's brain reaches its greatest weight about the age of twenty-five, while in the case of a man, this does not occur until ten years later. This explains the assertion that a woman at the age of twenty-one is in a better position to give a matured judgment than a man at the same age.

## Nelson-Kruger.

Miss Esther E. Nelson, daughter of Mr. and Mrs. Lawrence Nelson of South Long Lake, was married to Arthur C. Kruger, son of Mr. and Mrs. Albert C. Kruger of the same township, the ceremony taking place at the home of the bridegroom's parents, Wednesday morning at 11 o'clock, Rev. Fred M. Ohms officiating in the presence of a group of relatives and immediate friends.

The bride was dressed in white and carried a bouquet of white roses. The bridesmaid was her sister, Miss Nettie Nelson, gowning in white and the best man was Peter Nelson, her brother.

A wedding dinner followed the ceremony. After a short wedding trip to Duluth they will be at home to their friends at their home on Elm street, Brainerd.

The bridegroom is a carpenter contractor. The bride is a charming young girl with a large circle of acquaintances.

## HORSES IN ANCIENT BATTLE

Seem to Have Been Little Used Except to Carry the Infantry into the Fight.

In the old days when the Romans and Greeks fought furious battles, the charioteers drove their cars in all directions, hurled their javelins, and by the din and clatter of horses and wheels commonly threw the ranks of the enemy into disorder, and making their way among the squadrons of the enemy's cavalry, leaped down from their chariots and fought on foot. The charioteers then withdrew, little by little, from the fight, and placed their chariots in such a way that if they were hard pressed they could readily retreat to their own side. Thus in battle they afforded the mobility of cavalry with the steadiness of infantry. Daily practice enabled them to pull up their horses at full speed when on a steep slope, or to run out on the pole and stand on the yoke, and to get nimbly back into the chariot.

With the introduction of cavalry in the later iron age came larger horses, but their use for this purpose seems to have been restricted to isolated areas. There is no doubt that the west German tribes, as late as the campaign of Caesar in Gaul, used only the shaggy pony. It is said in cavalry actions they held it disgraceful and slothful to use any kind of saddle, and instead of charging in squadrons they dismounted and fought on foot. As far as England is concerned, the art of riding seems to have been introduced by the Normans. The Saxons appear to have been but indifferent horsemen.

## "Catsup."

The word "catsup," which is spelled "catsup," "catchup," "ketchup" and "kitchup," is a corruption of the Chinese word "kitlap," the name given to an inferior kind of soy made in China.

## Chance for Inventors.

A prize of \$10,000 is offered by the Walnut Growers' association to any one who will invent a satisfactory machine for branding the shell of each English walnut in a yearly \$10,000,000 crop.

## J. O. MARCETICH BACK FROM FRANCE

Sergeant Met by His Cousin Sam Marcetic at Little Falls—Frank Oberg in Town

## SOCIAL NEWS GIVEN OF IRONTON

Mrs. I. W. Smith and Party of Her Friends Motored to Minneapolis—Geo. Syreen Home

Ironton, Minn., July 2—Mr. and Mrs. MacKay and family, Mr. and Mrs. Proctor and Mr. and Mrs. Ed. Burns are spending a few weeks camping at Gull lake.

Capt. Pascoe went to Fergus Falls on business last week.

Jack Severinski of the Cash Meat market is away on a month's vacation in Pittsburgh, Pa.

Mr. and Mrs. McGregor of Proctor and P. D. McGregor of Fort William, guests of Mrs. McGregor's sister Mrs. L. H. Gauthier, left for their respective home Wednesday.

Sam Marcetich went to Little Falls to meet his cousin, Sergt. J. O. Marcetich, who has just returned from France.

Mrs. I. W. Smith, Mrs. M. B. Ellingson and Lorraine Ellingson left Thursday by auto for Minneapolis. They will be accompanied home by Miss Ruth Smith.

Mrs. C. A. Breer, who has been teaching at Barnum, arrived home this week.

Mr. and Mrs. E. A. Lamb, Jr., left Monday for Minneapolis, where they had the tonsils of their two children removed.

Mrs. Bratrud of Chester, Iowa, is visiting her daughters Mrs. Badeaux. John Lundgren is enjoying a ten-day furlough from the army.

G. O. Dimmick left Monday for Cloquet where he has employment for the summer.

Mr. and Mrs. C. L. Anderson and family visited in Aldrich from Saturday until Tuesday.

Frank Oberg of Minneapolis visited his brother here last Saturday.

Mrs. Ballard and daughter, who were guests of Mr. and Mrs. Nyman, left Saturday for their home in Salt Lake City, Utah.

Miss Lillian Stearns left Wednesday for Washington, D. C., where she has accepted a position.

Mrs. P. G. Ellingson and Mrs. F. Johnson motored to Kenning on Saturday and visited friends.

Joseph Paulson, guests of his brother, D. O. Paulson, left Friday for Grantsburg, Wis.

Mrs. Elizabeth Ransom of Mount Ida Wis., is the guest of her daughter, Mrs. Sherman Jacobs.

George Syreen returned Friday from France where he saw service for a year or more.

## CUYUNA

Cuyuna, Minn., July 2—Miss Mary Oakes of Brainerd visited friends here during the week-end.

Martin Johnson has purchased the Max Greenberg home on North street, and will occupy the same with his family.

Mrs. M. Cowen and son of Altin visited at the Earl Cowen and Tom Christian homes here during the week end.

Mr. and Mrs. Oscar Peterson, Nels Jacobson and Mrs. Henry Grew attended the Ford picnic at Mille Lacs lake Saturday.

Johan Gutormson, Mr. and Mrs. E. Rhodes and daughter and Miss Josephine Klem, picnicked at Mission Sunday.

Ellen Peterson, who has lived with her grandmother the last two years while attending school here, has gone to her home at Williams to spend her vacation with her mother and brothers.

Mr. and Mrs. Carl Anderson and family are visiting in Minneapolis this week.

Frank Buchanan and Ed Rhodes attended the state gun tournament at Minneapolis this week.

Miss Mabel Oberg visited relatives at Deerwood during the week-end.

The infant daughter of Mr. and Mrs. Gust Nord of the Northland location is quite ill at the Allen hospital, Crosby.

A surprise party was given Miss Pearl Sanderson by a large number of her friends Wednesday evening.

Mrs. O. Anderson and children left Saturday afternoon for an extended visit at several Michigan points.

Mrs. Frank Lind and infant daughter are visiting relatives at Negawnee, Mich.

Mrs. William Nelson has gone to Williams, Minn., for an extended visit at the Ernest Peterson home there.

Paul Buchanan, Albert Sequin and Frank Buchanan, attended the ball game at Crosby Wednesday evening.

Mr. and Mrs. Ed Rossberg and daughters attended a picnic at Mille Lacs lake Sunday.

## GIVES CAT PALM OF WISDOM

Writer in California Newspaper Comes Forward With Loud Praise of Household Pet.

It is often a subject for discussion as to which is the wisest animal. Some say it is the dog and some are in favor of the horse, while scientists appear to think it is the elephant.

We beg to differ with all these views. We do not even agree to the movement in certain quarters to give the palm for wisdom to the fox. To our mind the wisest animal that lives is the cat. And, if it goes to that, we are willing to have it further known that of all animals we like the cat the best.

A cat is so wise that it succeeds in not letting us know how wise it really is. If you will be friendly with cats—and that's an easy thing to do—you will be astounded at their wisdom. And you could not imagine how affectionate a cat can also be.

There is an old yellow cat up in the Verdugo hills that we wouldn't trade for all the dogs and horses and elephants outside of Barnum's circus. When the last of his nine lives departs from the earth those mountains will be a very lonely place for us.—Los Angeles Times.

## For Success in Business.

Wealth is, after all, only what is produced by us, either by mental or physical labor. It stands to reason, therefore, that if a man would become rich in this world's goods, or in knowledge of things or men, he must work hard and long to acquire such knowledge and skill. And he will be rewarded in proportion to his work. Despite a lucky stroke occasionally here and there in a man's life, I am a firm believer in the motto that nothing really comes by chance to a man which is of much value beyond the ordinary.

Success has usually been prepared for, striven for, helped onward by his own innate ability, work, or tact in ways the exterior world often failed to recognize. Hard work is the best friend any man ever embraced.

I would say to all youthful beginners in business that business is like the land—the more you put into it the more you will get out. If you put nothing in, you will get precious little out; if you tend it in desultory fashion, you can only expect an indifferent harvest, if any at all.—Exchange.

## Where Is Teschen?

This is the latest breakfast-table problem. Although the town has figured prominently in European history at various times for over a century, Lloyd George had to confess, when it was mentioned at the peace conference, that he did not know exactly where it was situated.

Nor was he alone in his lack of knowledge. It is doubtful if one person in fifty would be able to give you any information about the town.

And yet it was once the scene of a great peace conference—that of 1779, when Vergennes, the foreign minister of France, arranged the peace of Teschen, thereby avoiding a great European war, and also, in all probability, securing the independence of the United States.

## Nerves of Smell Note.

In spite of the vast mechanical improvements of the age, the best alarm clock is still the sweet perfume of frying ham and eggs.—Toledo Blade.

## 4th Burnt Fingers

More burned fingers on the 4th of July. You know the day is coming, you know that accidents will happen. See that you are well supplied with burn ointments, with bandages, absorbent cotton and adhesive plaster. We will fit you up with a little 4th of July equipment if you say so.

MEET AND TREAT AT OUR FOUNTAIN

## Ten Reasons

Have you turned in your ten reasons why the ELWELL cabinet with the hundred pound flour bin in the base is superior to any other type?

Do not delay. Some one is going to win this splendid PORCELAIN TOP CABINET BASE, and why not you?

We furnish the blanks and give you freely all information in connection with this contest.

We would count it a privilege to be allowed to demonstrate to you our ELWELL line. A visit to our show room will convince you that it offers more for what you invest than any cabinet on the market. One of our many attractive patterns is illustrated below. Come in and look it over.

## DR. ANNA H. SHAW PASSES AWAY

Was Honorary President of Suffrage Association and on Council of Defense.

## SUDDENLY TAKEN ILL

Dr. Shaw Recently Was Awarded the Distinguished Service Medal for Her Work at Home and in France During War.

Philadelphia, July 3.—Dr. Anna Howard Shaw, honorary president of the National American Women's Suffrage association, died at her home in Moylan, Pa., near here. She was 71 years old.

Dr. Shaw also was chairman of the woman's committee on the Council of National Defense and recently was awarded the distinguished service medal for her work during the war.

She was taken ill in Springfield, Ill., several weeks ago, while on a lecture tour with former President Taft and President Lowell of Harvard university, in the interest of the league of nations. Pneumonia developed and for two weeks she was confined to her room in a Springfield hospital. She returned to her home about the middle of June and apparently had entirely recovered. Last Saturday she drove to Philadelphia in her automobile and upon her return said she was feeling "fine." She was taken suddenly ill again with a recurrence of the dis-

ease and grew rapidly worse until the end.

Her secretary, Miss Lucy E. Anthony, a niece of Susan B. Anthony, who has been with Dr. Shaw for 30 years, and two nieces, the Misses Lulu and Grace Greene, were at her bedside when she died.

### Suffrage President 11 Years.

Dr. Shaw long had been prominently identified with the woman suffrage movement and was president of the National American Woman's Suffrage association consecutively for 11 years. In 1915 she declined a renomination and was then elected honorary president. She had spoken in every state in the union before the many state legislatures and committees of both houses of congress in the interest of suffrage. She was a member of the International Woman Suffrage Alliance, International Council of Women, League to Enforce Peace and National Society for Broader Education. Dr. Shaw was born in New Castle-on-Tyne, England, and was brought to America by her parents when four years of age.

Dr. Shaw continued her active participation in public affairs to the last. Immediately after hostilities had been terminated in France by the armistice, Dr. Shaw signed the resolution she helped draft for the National American Woman Suffrage association, addressed to the peace conference, asking for punishment of the Germans for their crimes against women and girls.

For her endeavors in the interests of women at home as well as soldiers in France during the war, Dr. Shaw received letters from Queen Mary of England, Mme. Poincare, wife of the president of France; President Wilson, General Pershing, and other celebrities.

### BORAH WILL OPPOSE PACT

Says Agreement to Aid France Contains Inconsistencies.

Washington, July 3.—Whether or not the United States senate will accept the Franco-Anglo-American alliance, which the President is bringing home with him, has added new complications to the opposition to the treaty. Senator Borah issued a statement calling attention to the inconsistency of the treaty, with the league, and said he would oppose it on the same grounds that he opposed the league. There is no unanimity of feeling in the senate on the subject. Many fear it's possible implications but recognize that America cannot well undertake to avoid all responsibilities in enforcing the peace which it has assisted in making, and it is further recognized that today France is the outpost of civilization, just as she was in the commencement of the present war.

### Right Pivot.

A darky was unloading horses and when he had the halter hanks of six horses he started up the road toward camp and the stables. Just before entering camp the road turned sharply to the right; in fact, it made a right angle with its previous course.

At this point the darky with his six halter hanks experienced some difficulty in getting all the horses to make the turn and he was heard to shout: "Here, what's the matter with you all? Don't you all know how to make a turn to da right? Number one pivot! Pivot dar on de right."—Pittsburgh Chronicle-Telegraph.

## INTEREST IN ROADS GROWS

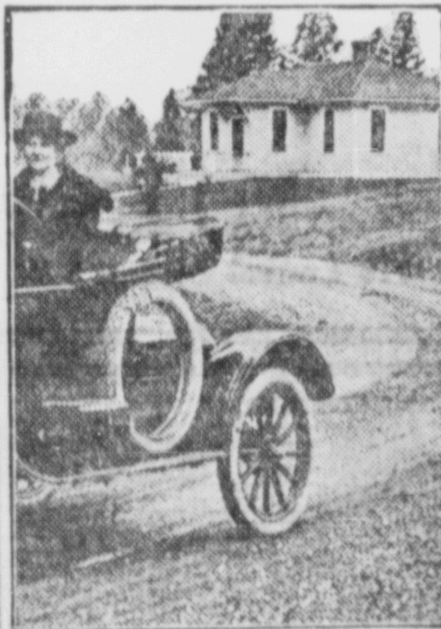

More Attention Now Given to Improvement in Highways Than Ever Before in History.

The good roads movement is seeing a big revival now that business is becoming normal. The most important program that has recently come to our attention is that of the state of Michigan, which has just voted in favor of a \$50,000,000 program that, when carried out, will place Michigan on the map big so far as good roads are concerned, writes Birkett L. Williams, truck sales manager for a large motorcar corporation.

Everywhere else you see also more interest in good roads than in any period in our history. It is true to say that the war and its needs taught us the value of good roads. Perhaps it did. Perhaps it brought home to those dull ears of higher ups the supreme importance of an intelligent system of navigable highways. But more and more it comes home to the man who studies the situation that back of the good roads movement must be the ordinary man, the average man who pays taxes and votes and thinks as he votes.

The farmer or rural dweller in certain sections for a long time stood in the way—he wanted the roads, but he didn't want to pay for them. He did not realize that in the long run good roads pay for themselves out of savings made to the community in hauling of people and merchandise. But the farmer today is reckoning in units of time.

Yes, he realizes the value of minutes throughout the season—and he is just as keen in conserving time as the city-bred man who operates a big factory; if anything, he is a bit keener, for seasons do not wait and crops must be sowed and cultivated and reaped and marketed at the right time. He has convinced himself that time is money. And he knows that good roads save time and that they save time largely because they make it possible to get satisfactory services from motorcars and motortrucks. And he is not one bit blind to the fact that operating cost is largely influenced by road conditions—that good roads make gasoline more elastic, rubber and steel more durable and bring markets nearer, and that good roads increase property values out of all proportion to the cost.

Good Roads Are Necessary to Efficient Operation of Automobiles.

of good roads to any one individual. Therefore, the farmer is now back of road improvement.

Does the city man feel any interest in good roads? Ask your neighbor. If he doesn't own an automobile he expects to own one, and he knows all about where the good roads are and what they mean. But when his influence counts big, the greatest impetus has naturally sprung from the numerous army of motorcar owners to whom motorcar ownership has made the territory for miles around his neighborhood.

Counties and states where good roads have become a steady part of a progressive program of legislation have seen values shoot up in the most surprising fashion, and this, again, has brought home the fact that good roads pay for themselves. Thus it is natural that the years 1919 and 1920 will see the most stupendous good roads programs inaugurated in America that the world has ever known. This will result in the wider utility of motorcars and motortrucks and, of course, prove a big aid to the solution of the freight traffic problem.

### NEW ROADS COST \$8,000,000

Utah Plans Extensive Improvement on Lincoln Highway on Wyoming-Utah Line.

The road law just adopted by the Utah state legislature will provide, in connection with the federal aid fund a total of about \$8,000,000 for highway construction in that state. Present plans call for extensive improvement on the Lincoln highway, particularly between the Wyoming-Utah line and Salt Lake City.

## AMUSEMENTS

### IN PRIVATE CAR

Guy Bates Post to Arrive in Brainerd July 4 to Present "Masquerader"

Tomorrow Guy Bates Post will arrive via the Northern Pacific in his private car, the Lavaca, together with two large baggage cars carrying the effects of "The Masquerader," which he will play tomorrow night at the Park theatre.

So strenuous is the dual role of Chilcote and Loder in "The Masquerader," that Richard Walton Tully provides his star with this car in order that he may do full justice to the performance while on tour. It is one of the longest parts ever played by an actor and Mr. Post is on the stage practically from the time that the curtain rises until the final word is spoken. From an artistic standpoint it is said there are few characterizations to compare with it in the history of the American theatre.

At this time it might be well to call attention to the fact that no one will be seated during the action of the prologue of "The Masquerader." The first scene reveals Mr. Tully's remarkable stage picture of a London street shrouded in fog, and as the house is in practical darkness through the five minutes the scene lasts it is impossible to show patrons to their places while it is being played.

This is one production which can only be played by using the entire settings. The piece is so mounted that were the stage just six inches less than the required dimensions the attraction could not be played. For this reason our play-goers will know that not only the original company but the original and complete production of "The Masquerader" will be shown here as is customary with all of Mr. Tully's productions.

### At the Best Today

Ethel Clayton, the talented, beautiful and versatile Paramount star, will be seen in "The Mystery Girl" at the Best theatre today. Marion Fairfax adapted the picture from one of George Barr McCutcheon's latest and most popular novels, "Green Fanny."

William C. De Mille directed the picture with much skill. The supporting cast is an excellent one, the players including Henry Woodward, Clarence Burton, Charles West, Winter Hall, Maym Kelso and Parks Jones.

### At the Best Tomorrow

Mabel Normand in "When Doctors Disagree" follows the success of her "Sis Hopkins" and "The Pest" in a decidedly different way. The new Goldwyn Picture embodies all the elements that go to make a typical Mabel Normand production and at the same time it surpasses them all. There are undeniable reasons for this.

"When Doctors Disagree" is a real farce. Its basis is one of the most laughable situations ever conceived; its interpretation and pictorial aspects are flawless.

### At the Best Next Week

A magnificent picturization of "The Woman Thou Gavest Me," by Hall Caine, the most famous novel by the Manx author, will be seen at the Best theatre next week. Hugh Ford, one of the most experienced of stage and screen producers, went to California to make the picture with a powerful cast which includes Katherine MacDonald, Milton Sills, Theodore Roberts, Jack Holt, Fritz Brunette, Katherine Griffith and others.

The production has practically an all star cast of players. Miss MacDonald, a prime favorite, has the leading feminine role and Jack Holt has one of the best roles of his screen career.

### RESULTS ON THE DIAMOND

American Association.

### Aviator Burned to Death.

Hempstead, N. Y., July 3.—Lieut. Jules Biscaryart, an aviator, was burned to death here when his airplane fell. The gasoline tank exploded. Biscaryart, who resided here, was recently married.

OLD PAPERS—5c BUNDLE

## "Gee-Whiz! How it Hurts—" →The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is "Keep the kidneys in good order."

Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric. This can be obtained at almost any drug store. Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

### TO IMPORT AMERICAN COAL

France Will Use Special Fleet to Carry Needed Supply.

Paris, July 3.—Louis Louchet, minister of reconstruction, said in the Chamber of Deputies that the French government is arranging to import 1,000,000 tons of coal from the United States, using a special fleet for the work. He assured the Chamber that, while France might not be able to face the coming winter without misgivings regarding the fuel supply, she would be able to tide over the coal crisis, which, he added, is worldwide.

### RUSSIAN ANARCHIST HELD

Said to Have Boasted of Operating Bomb Factory.

New York, July 3.—Federal agents who have been seeking the perpetrators of the bomb explosions in eight American cities, June 1, were informed of the arrest by New York detectives of Paul Krevitz, a Russian machinist, who is said to have boasted to the police of operating a bomb factory and of being a Bolshevik.

Krevitz, who is 37 years old, predicted the downfall of the United States government in two weeks.

# PRINCE ALBERT

International Joy Smoking

CRIMP CUT  
LONG BURNING PIPE AND  
CIGARETTE TOBACCO

Copyright 1919 by  
R. J. Reynolds Tobacco Co.

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin' smokes you'll find aplenty in P. A. That's because P. A. has the quality!

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Toppay red bags, tidy red tins, handsome pound and half pound tin humidors—and—that clever, practical pound crystal glass humidifier with sponge moistener top that keeps the tobacco in such perfect condition.

## AL. BARNES CIRCUS IN BRAINERD TODAY

Terrific Storm at Detroit, Minn., Delayed the Removal of the Circus to Brainerd

### BIG BUSINESS AT DETROIT

Two Performances at Brainerd, Afternoon and Evening—Circus Draws Many People

A terrific storm at Detroit delayed the removal of the Al. G. Barnes circus, which arrived in Brainerd at about 10 o'clock. Big business was done at Detroit, and hundreds of summer resort visitors, business people and farmers swelled the attendance to capacity.

The great American national amusement—the circus—has arrived. In all its awe-inspiring ponderousness, its kaleidoscopic radiance, and its spirited revelation, it appears again, and old and young flock from miles around to see presented as multitudinous attractions. Its thrilling music, the crowds, the animals, the sights, sounds and smell, appeal to the senses in varying allurements until the circus has been termed the "greatest social magnet of modern times."

We have with us today A. G. Barnes wild animal circus, the only exhibition of its kind in existence.

Before noon the long brilliantly colored cars, bearing the glittering paraphernalia of the "mammoth exposition," reached the railroad yards of this city. There was present the usual onlookers with ages varying from 1 to 100.

As the hours progressed wagons bearing canvas, poles, stakes and animals were hurried from the multi-colored platforms and rushed to the show field, where within an incredibly short space of time, there grew a canvas city, thronging with people, inhabitants and visitors.

This season the show appears partic-

6-Mile. Dollia" and War Elephants from Battle Field of Europe with A. G. Barnes Circus Today

ularly new and fresh in street attire and there appears to be no question that the thousands who did attend the Barnes circus today were not disappointed.

As an opening feature a fairyland fantasy was presented, entitled "Alice in Wonderland." Barnes has created a little fairy fantasy by taking little Alice from Wonderland and transporting her into the realistic realms of jungleland. The scenic setting represents a park in which is a rustic bench, fairies appear, waving their wands, whereupon a king in regal splendor arrives as if by magic. He, wishing to impress Alice, orders his royal jungle to come forth. Then begins a pageant of wondrous beauty. Queens, kings, rajahs, pashas, with their royal equipage, elephants in typical jungle outfittings, caravan of camels, herds of zebras, droves of lamas, hundreds of ponies and den upon den of wild animals are in the procession. Following the pageant, arenas and sawdust circus become a jungle joy, almost every specie of wild and domestic animals perform some circus feat. A performance of 110 different wild animal features follows.

All in all, Al G. Barnes has an excellent show. Each years new features are added, new creatures and new sensations are given to the circus loving public. Barnes has gathered rare animals from all parts of the earth.

Asked the secret of his success in the circus business, Barnes replies: "Hard work, honesty and giving the public its money's worth."

The Barnes show tonight starts at

## FLIER OVER CITY 5:10 P. M. WEDNESDAY

Aviator on Way From Minneapolis to Bemidji Where He Gives Exhibition on Fourth

### MADE BEMIDJI AT 6:15 P. M.

All Brainerd Stretched its Necks to See Him, Clarence B. Stickney First to Report

Following calls from Bemidji that their Fourth of July flier was winging his way from the Twin Cities to Bemidji Wednesday and requesting Brainerd to keep a lookout for him, dozens of stiff necks were reported today.

Clarence B. Stickney was the first to see the flier who approached from the south, followed Sixth street north and then swung to the northeastward crossing the cemetery. He was flying high up near the clouds and had a stiff wind at his back.

It was 5:10 P. M. as he crossed the city. Some time was lost until he singled out the Minnesota & International railway and continued northward.

## FOURTH IN CITY, LUM PARK PROGRAM

Park Offers Fine Place For Picnicking and a Safe and Sane Celebration

### NO BASEBALL GAME HERE

Team Cancels Morning Game Here and Plays at Little Falls 4 P. M.

Lum park is the only place offering a Fourth of July program in Brainerd. The management has arranged a celebration of the safe and sane kind, with picnicking, music, dancing, bathing, boating, etc., as the attractions. Many who will not leave town will spend the day at Lum park.

There will be no ball game in the

## RELIEF FOR STOCK, STATE TO HELP

Plan to Bring Western Sheep and Cattle to Minnesota and Unload at Central Point

### PASTURES SHOULD BE LISTED

Conference Called by Commissioner of Immigration Fred O. Sherman and Held at St. Paul

An important conference was held at the office of Commissioner of Immigration Fred O. Sherman, at the State Capitol, St. Paul, Saturday, June 28th, the results of which will be the establishment of an emergency bureau to afford relief for western stock men in Montana and the Dakotas. Reports from that section indicate that thousands of cattle and sheep are starving for lack of pasturage and the plan will be to furnish Minnesota pasture for these animals while in transit to the Chicago markets. The plan will be outlined by Food Commissioner A. D. Wilson, Commissioner of Immigration Fred O. Sherman and representatives of the newly created Bureau of Agriculture. It will be under the direction of the immigration department of the state which will be headquarters.

### The Plan.

It is planned to bring western sheep and cattle to Minnesota, unload them at some central point in the pasture districts and then place them on tracts under the direction of the owners of the stock, who are to afford herdsman, feed the animals grain as well as afford them the pasture and later help to ship them to the markets.

The arrangements for the use of improved pastures will be made between the owner of the stock and the owner of the land. The Brainerd Chamber of Commerce and Crow Wing county, as well as the Northern Minnesota Development association were represented at this conference by Fred T. Lincoln. He will become a member of the emergency board from this county. R. R. Wise was suggested as the representative of the Northern Minnesota Development association.

### List Your Pasture.

Wide publicity has been given this movement and inquiries are coming in at the office of the Brainerd Chamber of Commerce. Land owners in Crow Wing county who have land available for pasture should at once file their names and a description of the land with Secretary Lincoln, in order that when the definite plan is outlined and made public, he may be in a position to place land owners in immediate touch with western stockmen and others who will be shipping to this locality.

## RIVERTON YOUNG MAN TAKES LIFE

Riverton, July 2—Jens Broland a young man, took his own life here Thursday night by hanging himself in the wash room of the Winston-Deer boarding house. His lifeless body was found hanging to a pipe. He had used a towel, and placing it around his neck he had leaned forward until death came by choking.

It is said Broland was demented over a girl he was going with who lives in New London. According to Lew Silverman of this village, Broland engaged him Thursday to drive him to New London and that upon getting as far as Brainerd, ordered him to return. Thinking everything not right with Broland, Silverman questioned him and found out that he had trouble with the girl. Broland has a brother in Blackduck and his parents live in Norway.

### Business Hours at the Postoffice, Friday, Fourth of July

The general delivery and stamp windows will be open in the morning from 8 until 9 o'clock, during which hour the usual business of these windows will be transacted. Patrons who have registry or parcel-post business for dispatch or receipt should present this business at these windows at this above hour. No delivery of mail will be made by either the city or rural carriers but patrons who receive their mail by carriers may call for it at the office at the above hour passing thru the work-room of the office to their respective carrier as has been the custom. The usual dispatch and distribution of mails will be made and the lobby of the office will be open during the day. No money-order business will be transacted.

H. P. DUNN,  
Postmaster.

H. F. Michael Co.

## SEEKS ENJOIN THE ERECTION OF TOWER

George H. Gardner, as a taxpayer, has filed papers seeking an injunction to restrain city, water and light board and W. S. Hewitt & Co., contractors, from erecting an ornamental water tower and tank at the site of the old depot location. He claims the city has no valid lease, simply permissive occupancy from year to year which can be terminated at any time and that a tower 150 feet high and costing \$40,000 should have more permanent title to its base.

Judge W. S. McClenahan has set July 7, 2 P. M., as the time for hearing the matter.

## 12,000 SHEEP PLACED

Twelve thousand head of sheep were recently shipped to Northern Minnesota as the results of the work of C. E. Hutchinson, publisher of "Cloverland Magazine," who has been working in close touch with western stock men. These sheep were placed on a large tract of land owned by capitalists interested in Northern Minnesota lands. Another shipment will be made to Minnesota in the near future and the plan is to list all available tracts of land with the name of the owner, nature of the pasture, whether fenced or not and the availability of grain to be used in making the stock fit for a quick market.

The conference took up the entire forenoon and part of the afternoon Saturday and was attended by representatives of the railroad, the immigration and the agricultural departments of the state, A. A. Opsahl of Bemidji, F. T. Lincoln of Brainerd and others, who responded to the hurry-up call sent out by Immigration Commissioner Fred D. Sherman and A. D. Wilson of the Federal Food Department.

J. H. Hays, of Thief River Falls, well known to Brainerd people and to members of the Chamber of Commerce, where he spoke two years ago at the Northern Minnesota Development association, is a member of the newly created board of agriculture, and is taking an active part in the organization in this emergency board.

## ROLL OF HONOR

George Trent of the 53rd Engineers, 6th Division, has returned home from war service. He was in the Army of Occupation at Coblenz, Germany.

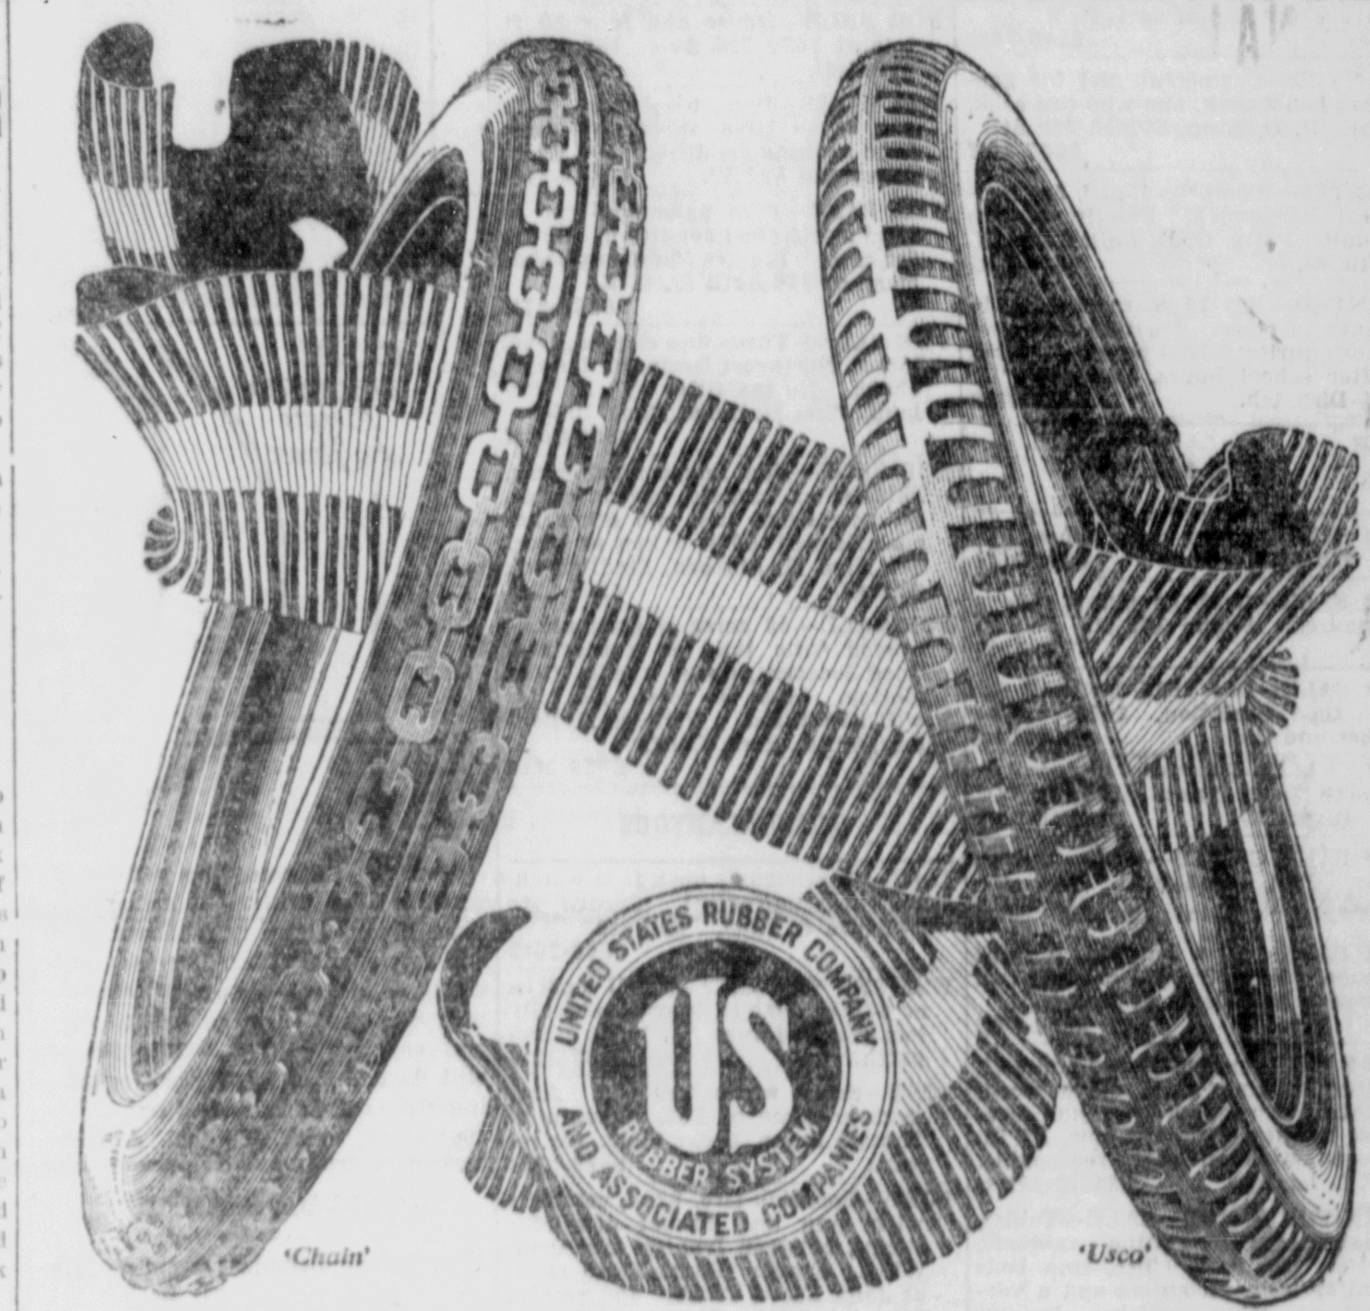

Private Wm. Elliott, son of Mr. and Mrs. A. G. Elliott, 340th Aero Squadron, has landed in Philadelphia and is expected home soon. He spent a year in France and Germany.

Second Lieut. Ingolf Dillan, a Marine, is home on a short furlough, visiting his parents, Mr. and Mrs. L. J. Dillan. He saw service in the West Indies.

Wagoner Elton Hokanson has gone to Michigan to visit his parents.

Private Harry Newgard of Belmont, Iowa, was in the city visiting his aunt, Mrs. T. J. Newgard and family. He has a homestead at Grand Prairie, Alberta, and at the time of the world war enlisted in the 8th siege battery and served 17 months overseas.

News has been received in Brainerd by Henry Heikkinen that his nephew, Private Jakob Huovinen,

## Referee, Judges and Timekeeper Upon Whom the Public Depends for Square Deal When Willard and Dempsey Meet

OLLIE PERCORD  
PRESS  
ILL  
SERVICE

MAJ. ANTHONY J. DREXEL  
U. S. A.

W. WARREN BARBOUR  
CO-OPERATIVE PRESS

TEX RICKARD

Here are the men who will decide whether Jess Willard is still champion heavyweight of the world. If his battle with Jack Dempsey goes the limit of twelve rounds. Also the man who will ring the bell to start and end the rounds, Ollie Percord will do a lot of hard work refereeing the bout and keeping out of the spectators' way. Major Anthony Drexel Biddle, wealthy clubman and chairman of the Board of Boxing Control, and Tex Rickard, promoter of the fight and all-round sportsman, will act as judges. Barbour, who will be timekeeper, was once amateur heavyweight champion. Percord formerly was professional boxer and baseball player.

## CRIBBAGE CHAMPION

Wm. Nelson Defeats Prominent Minneapolis and St. Paul Players

Wm. Nelson, secretary of the water and light board, retains his honors as cribbage champion of Brainerd. In games with F. T. O'Dell, a traveling salesman of Minneapolis, the score read O'Dell 121, 98, 93 and 97, total 409; with Nelson's figures 115, 121, 121, 121 a total of 478.

J. F. Drurr, a consulting engineer of St. Paul, then took part and he

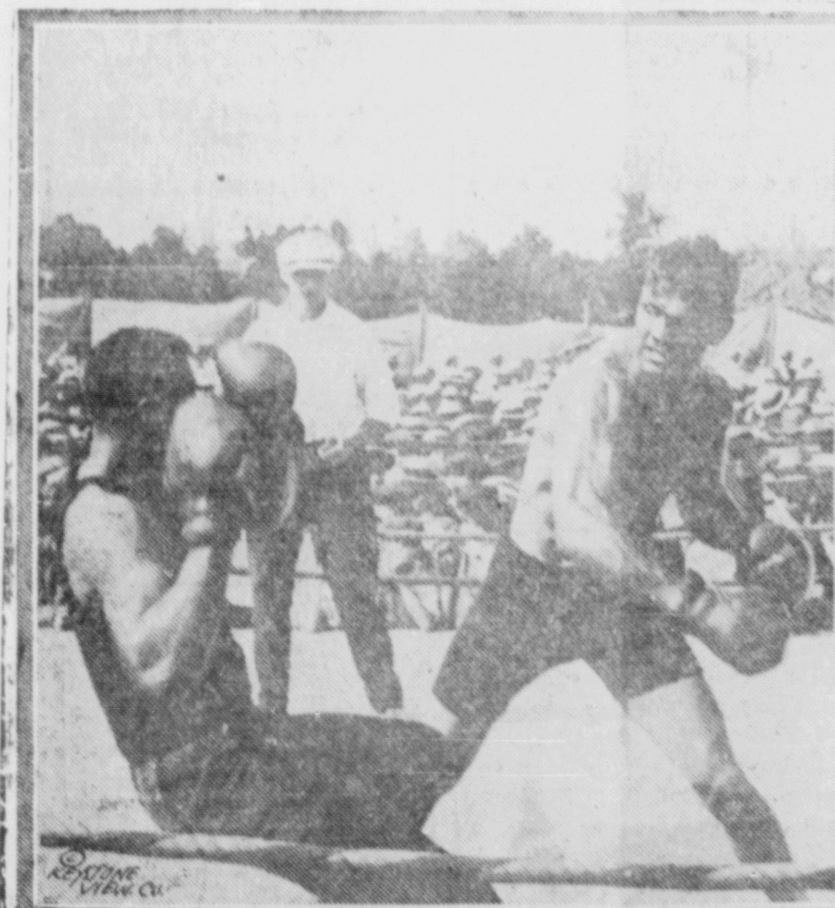

was also in the losing column, the figures reading Drurr 97, 121 and 106, total 324; while Nelson had 121, 112 and 121, total of 354.

The Twin City men then said: "Oh, what's the use?"

## To Drive Moths From a Piano.

When moths get into a piano the best means of ejecting them is to make up a mixture of turpentine, benzoline and oil of lavender, and squirt this inside the instrument with a squirt spray. Use seven parts of benzoline to one of turpentine; add a few drops of lavender to each ounce.

## Dempsey's Sparring Partner Just After Stopping One of Challenger's K. O. Blows

It is difficult to reconcile two statements made by Bill Tate. He says Jack Dempsey is an awfully nice boss, but an awfully rough one. This photograph shows one of Bill's reasons for saying that the heavyweight challenger, who is to meet Jess Willard at Toledo on the Fourth of July, is "awful rough." The photographer snapped shutter just as Dempsey's sparring partner was falling for what turned out to be a cold knockout.

## "Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs—and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of—

- 65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.
- 10 per cent is frozen pork that is to be cured later in the year.
- 6 per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.
- 19 per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 1½ lbs. per capita—a 3 days' supply.

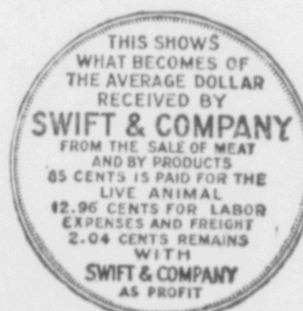

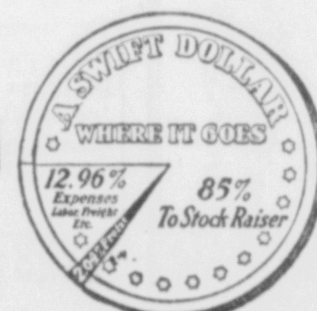

100%

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.
